To whom it may concern;

The Cape SA Jewish Board of Deputies recently made use of the services of A|W Management Consulting where we had them conduct a diversity workshop for the staff of the Jewish community centre in Cape Town.

The issue of diversity in the workplace is a tricky and sensitive one. The staff at the community centre is of vastly differing ages, ethnic origins and genders. Not only did we find the workshop itself of the highest standard, but the level of service and personal attention we received was to be commended. The consultants from A|W Management Consulting worked with us prior to the workshop to ensure that they understood the dynamics of our organisation and were therefore able to address the correct issues in the correct manner.

We were all immensely impressed with the workshop.

I would have no hesitation in recommending A|W Management Consulting to any future client.

Kind regards

David Jacobson
Executive Director
